

**METHOD AND SYSTEM FOR DIGITAL RIGHTS MANAGEMENT  
IN CONTENT DISTRIBUTION APPLICATIONS**

**ABSTRACT OF THE DISCLOSURE**

5

The invention described herein introduces a system which binds the content to a person or any other entity like a company. So duplication of the content and rendering of content is only allowed to a well defined number of devices. The devices used in a system according to the present invention are provided for playing unencrypted content as well. Thus, users are enabled to  
10 play their currently existing audio CDs with the same device.
